

WHAT IS AGILE?

- **Agile** is the ultimate way to work smarter, not harder! 🚀
- A methodology built for collaboration, flexibility, & delivering results that matter.

AGILE DEFINITION

It's all about responding to change while delivering value faster! 🌟

Agile is a project management approach focused on:

- Iterative progress (small, incremental steps)
- Collaboration (teams + stakeholders)
- Flexibility (adapting to change)

CORE PRINCIPLES OF AGILE

Built to keep you adaptable & productive! 💡

🔧 Core Principles of Agile:

- Individuals and interactions over processes and tools.
- Working software over comprehensive documentation.
- Customer collaboration over contract negotiation.
- Responding to change over following a fixed plan.

💡 Why Agile?

- **Fast Delivery:** Release usable features quickly.
- **Customer Satisfaction:** Build what users actually want.
- **Risk Reduction:** Test and adapt constantly.
- **Team Empowerment:** Create happy, self-organized teams.
